PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of production experience building complex, scalable web and mobile applications. Delivered an enterprise-grade NGO platform featuring WebSocket real-time communication, granular per-page role-based access control (RBAC), WhatsApp Business API, SEO automation, Razorpay payments, and live analytics — all manageable from a custom admin panel. Proven ability to own complete product development from architecture to deployment.

TECHNICAL SKILLS

Frontend:	JavaScript, TypeScript, React.js, Redux Toolkit, Next.js, Tailwind CSS, Bootstrap
Backend:	Node.js, Express.js, REST APIs, JWT, WebSockets (Socket.io), RBAC, Rate Limiting
Database:	MongoDB, MySQL, Firebase Firestore, Redis (basics)
Mobile:	React Native, Expo, React Navigation, Flutter
Payments:	Razorpay, Stripe (webhooks, payment intent, subscription)
DevOps:	AWS, Firebase, Netlify, Render, Docker (basics), GitHub Actions
Integrations:	WhatsApp Business API, SMTP, OpenAI/Opus API, SEO (meta/OG/schema/robots.txt)
Tools:	Git, GitHub, Bitbucket, Postman, Jira, Huly, Swagger

PROFESSIONAL EXPERIENCE

Full Stack Engineer | Namo Gange Wellness Pvt. Ltd.

Feb 2026 – Present

- Architected and built Moksha Sewa (mokshasewa.org) — complete NGO management platform for free cremation services, volunteer tracking, donor management, and cremation records
- Implemented WebSocket (Socket.io) real-time bidirectional communication between users and admin — live chat, instant notifications, and real-time dashboard updates
- Built granular per-page permission system — admin dynamically assigns or revokes access to any page for any user role without code changes
- Integrated WhatsApp Business API for OTP-based authentication and direct admin-to-user chat from dashboard
- Developed SEO automation module — canonical links, meta tags, OG tags, OG images, schema markup, robots.txt — all from admin panel
- Implemented IP tracking, analytics logs, email logs, WhatsApp message logs, and newsletter management
- Set up SMTP with custom HTML email templates for all user-facing form submissions
- Integrated Razorpay payment gateway with webhook handling, transaction records, and payment status tracking
- Stack: Next.js, Node.js, MongoDB, Socket.io, Tailwind CSS, Razorpay, WhatsApp Business API, SMTP, Opus AI

Frontend Developer | Bterai Technologies

Jun 2025 – Feb 2026

- Improved application load speed by 35%+ using lazy loading and code splitting techniques
- Resolved UI conflicts and refactored frontend architecture for better scalability
- Built reusable component library reducing feature development time across the team
- Collaborated with backend team for seamless API integration and optimized data flow

Mobile App Developer | LeaveCode Technologies Pvt. Ltd.

Sep 2024 – Apr 2025

- Built cross-platform mobile applications using React Native and Firebase for real-time sync
- Implemented state management and real-time data synchronization across iOS and Android
- Improved app stability through systematic debugging and performance profiling
- Ensured consistent UX across platforms with device-specific optimizations

- Developed responsive web applications using React.js and Node.js
- Implemented JWT authentication systems and backend API integrations
- Enhanced UI responsiveness and improved overall application performance

PROJECTS

Moksha Sewa — NGO Management Platform

mokshasewa.org

- Enterprise NGO platform: volunteer & task tracking, cremation records, donor management, multi-role access control
- WebSocket real-time chat (admin to user) + live notifications across entire platform
- Granular per-page permission system — admin assigns or revokes any page access per user dynamically
- WhatsApp Business API: OTP login + direct admin chat | Admin-controlled SEO — no code required
- IP tracking, analytics dashboard, email/WhatsApp/newsletter logs, dynamic banner & content management
- Stack: Next.js, Node.js, MongoDB, Socket.io, Tailwind CSS, Razorpay, WhatsApp API, SMTP, Opus AI

Mentors Daily — UPSC E-Learning Platform

mentorsdaily.com

- Scalable e-learning platform with structured content delivery, video streaming, and progress tracking
- Integrated Razorpay + Stripe payment gateways with secure webhook handling and verification
- Optimized for high concurrent users with performance-focused backend architecture

PlusDot AI — Web & App Development Platform

plusdotai.in

- Client-facing platform for businesses to request custom web and mobile solutions
- Admin dashboard, automated onboarding workflow, and backend API automation

FitPro — Fitness Management Platform

- Fitness tracking app with analytics dashboard, workout logs, and real-time Firebase updates
- Optimized UI responsiveness across devices with performance-focused component architecture

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Dr. A.P.J. Abdul Kalam Technical University | 2020 – 2024
