

# MANISH KUMAR SIROHI

Full Stack Engineer • React / Next.js • Node.js • React Native / Flutter • AWS • AI Integrations

Ghaziabad, India | [manishsirohi023@gmail.com](mailto:manishsirohi023@gmail.com) | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Full Stack Engineer with 2.5+ years of experience designing, building, and shipping production web and mobile applications end to end — from architecture and API design to CI/CD and cloud deployment. Specialized in React.js, Next.js, Node.js, and React Native, with hands-on delivery of multi-role SaaS platforms, real-time systems (Socket.io/WebSockets), e-commerce, and AI-powered workflows. Comfortable owning products across the stack and collaborating in distributed, agile teams.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, Dart, SQL, HTML5, CSS3

**Frontend:** React.js, Next.js (SSR/SSG), Redux Toolkit, Context API, Tailwind CSS, Responsive UI, Performance Optimization (code splitting, lazy loading, Core Web Vitals)

**Mobile:** React Native, Expo, Flutter, Offline-First Caching, Push Notifications, Firebase Realtime Sync

**Backend:** Node.js, Express.js, REST APIs, Socket.io, WebSockets, JWT, OAuth 2.0, OTP Auth, RBAC, Rate Limiting, Webhooks, Microservices

**Databases:** MongoDB (Mongoose), MySQL, Redis, Firebase Firestore, Firebase Realtime Database

**Cloud & DevOps:** AWS, Docker, GitHub Actions, CI/CD Pipelines, Vercel, Render, Cloudinary

**AI & Integrations:** OpenAI API, Opus AI API, ElevenLabs API, WhatsApp Business API, Twilio, SMTP/IMAP

**Payments & Commerce:** Razorpay, Stripe, Subscription Billing, Webhook-Driven Payment Verification, Order Tracking, Cart/Checkout Flows

**SEO & Quality:** Technical SEO (Meta/OG, Schema Markup, Canonical URLs, Sitemaps), Analytics, Jest, Postman, Swagger, Git, Jira, Agile/Scrum

## PROFESSIONAL EXPERIENCE

**Full Stack Engineer** | enCodency Pvt. Ltd.

Feb 2026 – Present

*IHWE — International Health & Wellness Expo Platform*

- Architected a multi-role enterprise expo platform (Super Admin, Admin, Exhibitor, Buyer, Visitor, Sales, Marketing) with granular RBAC, securing role-specific workflows for hundreds of concurrent users.
- Engineered a real-time layer with Socket.io/WebSockets powering live chat, notifications, and event-driven updates across the platform.
- Built a unified omnichannel communication hub integrating WhatsApp Business API, Twilio, SMTP, and IMAP — with full audit trails covering call recordings, emails, WhatsApp logs, and chat history.
- Integrated Opus AI to automate lead qualification and response workflows, cutting manual outreach effort for the sales team.
- Developed two companion mobile apps: a React Native app for exhibitors, and a Flutter-based admin attendance app enabling day-wise attendance tracking of visitors, exhibitors, and buyers at the expo.
- Delivered a lead management and buyer-seller meeting scheduler that streamlined expo matchmaking, plus a dynamic CMS with admin-controlled technical SEO (meta/OG tags, schema markup, canonical URLs) — removing developer dependency for content teams.
- Deployed on AWS using Docker and GitHub Actions CI/CD for zero-downtime releases; maintained Swagger API docs and Jest unit/integration test coverage.

**Frontend Developer** | Bterai Technologies

Jun 2025 – Feb 2026

- Built and maintained a reusable React.js + TypeScript component library, standardizing UI development across the team.
- Improved page load speed and Core Web Vitals through code splitting, lazy loading, and memoization.
- Integrated multiple third-party REST APIs with Redux Toolkit patterns, eliminating redundant API calls and improving data consistency.
- Raised code quality by introducing linting standards, Jest component tests, and structured PR reviews, reducing production bug frequency.

**Mobile App Developer** | LeaveCode Technologies Pvt. Ltd.

Sep 2024 – Apr 2025

- Shipped cross-platform iOS/Android apps from a single React Native + Expo codebase.
- Integrated Firebase Firestore and Realtime Database for live data sync across connected clients without manual polling.
- Implemented email/password and OTP authentication with offline-first caching, improving reliability in low-connectivity environments.

- Profiled and optimized rendering performance — reducing unnecessary re-renders to improve startup time and scroll smoothness on mid-range devices.

**Web Development Intern** | Sneagnic Pvt. Ltd.

Feb 2024 – Aug 2024

- Developed responsive web applications with React.js and Node.js/Express.js using component-based architecture.
- Implemented JWT-based authentication and session management for secure route-level access control.
- Built and consumed RESTful APIs and contributed to a production codebase through code reviews and sprint planning.

## KEY PROJECTS

---

### Moksha Sewa — NGO & Cremation Services Platform (Live Production) — [mokshasewa.org](https://mokshasewa.org)

React.js • Node.js • Socket.io • RBAC • Razorpay • WhatsApp OTP • Firebase • MongoDB • Technical SEO

- Built the full production platform for an NGO providing free cremation services across 12+ cities — including a 24/7 unclaimed-body reporting flow, volunteer portal, donation system, and transparency dashboard.
- Implemented WhatsApp OTP authentication, real-time chat via WebSockets, Razorpay donations with webhook-driven verification, and strict RBAC for sensitive cremation records.
- Engineered end-to-end technical SEO (meta/OG, schema markup, canonical URLs) powering the organization's search visibility.

### CityCalls — Multi-App Service Marketplace

React.js (Admin Dashboard) • Flutter (Vendor & Customer Apps) • Node.js • MongoDB • REST APIs

- Designed and delivered a three-application ecosystem: an admin web dashboard plus Flutter-based vendor and customer mobile apps operating on a shared Node.js backend.
- Built role-separated workflows for service management, vendor onboarding, and customer bookings with real-time status updates across all three clients.

### VELRUMA — Premium Clothing E-Commerce — [Live Demo](#)

Next.js • Node.js • MongoDB • Admin CMS • SEO Blog Engine

- Built a full D2C storefront — catalog, collections, lookbook, wishlist, cart/checkout with COD, and loyalty points — driven entirely by an admin-managed catalog.
- Implemented best-seller ranking computed from real order history and an SEO-focused blog engine for organic content marketing.

### The Vastra House — Fashion E-Commerce — [Live Demo](#)

Next.js • Node.js • MongoDB • Cloudinary • Payments

- Developed an Indian-wear e-commerce platform featuring pre-orders, order tracking, wishlist/compare, payment history, and an admin panel with Cloudinary-based media management.

### Mentors Daily — UPSC E-Learning & Mentorship Platform (Live Production) — [mentorsdaily.com](https://mentorsdaily.com)

React.js • Node.js • Razorpay • Stripe • JWT • MongoDB • Video Streaming

- Built a live UPSC preparation platform with video course delivery, secure access control, study progress tracking, and mentorship workflows for civil services aspirants.
- Integrated dual payment gateways (Razorpay + Stripe) with subscription plans and webhook-driven payment lifecycle handling.

### PlusDot AI — Business Automation Platform

React.js • Node.js • OpenAI API • Workflow Automation

- Developed an AI-powered workflow automation platform with a client onboarding flow and an admin panel enabling non-technical operators to configure OpenAI-assisted processes.

## EDUCATION

---

**B.Tech, Computer Science & Engineering** | Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh

2020 – 2024
