ABOUT EXPO 2026

The 9th Edition of the International Health & wisdom of Health and WellnessExpo 2026 is back to imbibe with engrossed in splendid events to promote the mind, body, and soul balance to live a holisticlife.

The Health & Wellness Expo 2026 organized by Namo Gange Trust is here to celebrate the dawn of yet another golden era for the country. This mega Expo would be showcasing various products and services allied to the Health & Wellness Industryincluding **AYUSH (Ayurveda, Yoga, Unani, Siddha, Homeopathy) Sector, Nutrition & Health Supplements, Fitness & Wellness Industry, Organic & Herbal Products, Agriculture, Horticulture & Medicinal Plants, Health & Medical Services, Bio-Energy & Sustainable Living & Research, Education & Government Bodies, Pharmaceutical Companies and Medical Equipment & Healthcare Technology.**

The Expo provides an all-encompassing platform for all stakeholders to come together to protect all facets of the sector. This will generate awareness among the members of the community about the efficacy of systems,

their cost-effectiveness, and the availability of herbs used for the prevention and treatment of common ailments. The 9th edition of the Health & Wellness Expo 2026 will bring the opportunity to interact with the stalwarts of the Health & Wellness industry for innovative products & solutions. Healthcare has become one of India's largest sectors - both in terms of revenue and employment. Healthcare comprises hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance, and medical equipments. The Indian healthcare sector is growing at a brisk pace due to its strengthening coverage, services, and increasing expenditure by public as well as private players.

WHY THE EXPO?

The Expo is bringing all therapies & pathies together under one roof. It will provide a platform for national & international organizations, companies and manufacturers which deal in **AYUSH, Nutrition & Health Supplements, Fitness & Wellness Industry, Organic & Herbal Products, Agriculture, Horticulture & Medicinal Plants, Health & Medical Services, Bio-Energy & Sustainable Living & Research, Education & Government Bodies, Pharmaceutical Companies and Medical Equipment & Healthcare Technology** to showcase their products and services.

This would be an excellent opportunity for clients and manufacturers to determine market potential on the basis of research and studies to develop proper understanding & commercial structures by identifying new ideas and initiatives for joint ventures and project partnerships.

The Expo will be presenting full spectrum of holistic health, traditional therapies, drugless healing, diet therapy and lifestyle management of ancient traditions. The Expo will also include many health workshops, seminars, health & wellness consultancy, astrology consultancy and many activities on latest knowledge of paramedical science and research. It would be a great opportunity to interact with world's renowned speakers, national leaders, health professionals & celebrities by sharing their ideas and knowledge on numerous "Health & Wellness" agendas. The Expo will be a great experience to discover health, peace and harmony under one roof.

WAY TO GO

AYUSH

The Ministry has developed a Central Sector Scheme for Promotion of International Co-operation in Ayush (IC Scheme) under which Ministry of Ayush provides support to Indian Ayush Manufacturers/ Ayush Service providers to give boost to export of Ayush products & services; facilitate International promotion, development & recognition of Ayush system of medicine; foster interaction of stakeholders & market development of Ayush at international level

AGRICULTURE

The agriculture industry in India market size reached INR 80,550 Billion in 2022. Looking forward, IMARC Group expects the market to reach INR 158,991 Billion by 2028, exhibiting a growth rate (CAGR) of 12.2% during 2023-2028. The changing dietary patterns of the masses, rapid population growth, altering weather patterns, increasing frequency of natural disasters such as precision farming, data analytics, drones, and automation, are some of the major factors propelling the Indian agriculture market.

HORTICULTURE & MEDICINAL PLANTS

According to the Agricultural and Processed Food Products Export Development Authority India ranks second in fruits & vegetable production in the world after China. Being a low-cost producer of fruits & vegetables India's total export of floriculture was Rs. 771.41 Crores/103.47 USD Millions in 2021-22. The major importing countries were U.S.A., Netherland, Germany, U.K., United Arab EMTs, Canada and Italy. There are more than 300 export-oriented units in India.

NUTRITION & HEALTH SUPPLEMENTS

The global nutrition and health supplements market is witnessing significant growth, driven by increasing health consciousness, rising disposable incomes and changing dietary habits. In India, the market is projected to grow at a CAGR of 15% from 2023 to 2028, fueled by demand for vitamins, minerals, herbal supplements, and functional foods. The shift towards preventive healthcare and immunity-boosting products, particularly post-pandemic, has led to increased consumption of nutraceuticals. Government initiatives like FSSAI regulations ensure quality and safety in this sector, supporting its rapid expansion.

FITNESS & WELLNESS INDUSTRY

India's fitness and wellness industry is booming, with an increasing focus on physical fitness, mental well-being, and lifestyle improvement. Valued at over INR 900 billion, the sector is expected to grow at a CAGR of 17% due to rising urbanization, digital fitness solutions, and government initiatives like Fit India Movement. The demand for yoga, meditation, gym memberships, wearable technology, and wellness retreats is on the rise. The integration of AI-driven fitness apps and virtual coaching is revolutionizing how people approach health and fitness.

ORGANIC & HERBAL PRODUCTS

Covid-19 pandemic has changed the perception of organic food, with spotlight now on safety and healthy food that is nutritious to build a strong immune system. It is time to talk about nutritional security not of food security only (which consist only carbohydrates). Among the most of healthy food options available, organic food is perceived as the preferred choice. According to FIBL survey 2021 India holds a unique position among 187 countries practicing organic agriculture.

HEALTH & MEDICAL SERVICES

India's healthcare industry is one of the fastest-growing sectors, projected to reach \$372 billion by 2026. The demand for affordable and accessible healthcare, telemedicine, and advanced diagnostics has surged, particularly after the pandemic. Government schemes like Ayushman Bharat are expanding healthcare coverage, while private hospitals, clinics, and wellness centers continue to invest in cutting-edge technology. The rise of medical tourism in India, especially in Ayurveda and alternative medicine, further strengthens the country's healthcare ecosystem.

BIO-ENERGY & SUSTAINABLE LIVING

As the world shifts towards renewable energy and sustainable living, bio-energy is emerging as a key solution to environmental concerns. India is actively promoting biofuels, biomass energy, and solar-powered solutions to reduce dependency on fossil fuels. The bio-energy market is expected to grow at a CAGR of 9% by 2028, with government policies such as the National Bio-Energy Mission supporting clean energy adoption. The integration of sustainable architecture, eco-friendly products, and green living practices is becoming mainstream, contributing to a healthier planet.

PHARMACEUTICAL

India is the world's third-largest producer of pharmaceuticals by volume and fourteenth-largest by value, supplying over 20% of the global demand for generic drugs. The Indian pharmaceutical market is expected to reach \$130 billion by 2030, driven by increased healthcare awareness, rising demand for affordable medicines and strong government support through initiatives like the Production Linked Incentive (PLI) Scheme. With a robust R&D ecosystem, India is also emerging as a leader in bio pharmaceuticals, vaccines, and speciality drugs, making it a key global player in healthcare innovation.

MEDICAL EQUIPMENT & HEALTHCARE TECHNOLOGY

India's medical equipment industry is set to reach **\$50 billion by 2026**, driven by rising investments in **hospital infrastructure and digital healthcare**. The **Make in India** initiative is boosting domestic manufacturing, reducing import dependence. Advancements in **robotic surgery, AI-driven diagnostics, and wearable health tech** are transforming healthcare. The **post-pandemic digital shift** has accelerated **telemedicine, blockchain-based health records, and IoT-driven monitoring**. With **Ayushman Bharat Digital Mission (ABDM)** and growing **health-tech startups**, India is emerging as a leader in **affordable, tech-driven healthcare**.

18th EDITION

arogya sangoshthi

The aim of our renowned seminar- **Arogya Sangoshthi** is to provide a common platform for researchers, academicians, scholars, professionals, and young researchers and aspirants to discuss and present their views and vision on emerging issues related to lifestyle disorders and the role of the Indian system of medicine to cure & prevention of the same. Our aim is to make the AYUSH system popular by organizing and conducting activities like seminars, conferences, health workshops, health exhibitions, health shows, health camps, health pavilions, etc. As every event is tailored to the needs of its instigator, our aim is to provide conceptual knowledge and the latest updates. Namo Gange Trust organizes seminars and conferences with every aspect of preparing and running their aims, objectives, and their outcomes.

2026

Arogya Sangoshthi, organized by Namoo Gange Trust, aims to create a common platform for researchers, academicians, scholars, professionals, and young aspirants to discuss emerging lifestyle disorders and explore effective solutions for their prevention and cure. The seminar highlights the importance of the Indian system of medicine (AYUSH) along with modern healthcare approaches.

Today, we proudly conduct Integrated Seminars, where Allopathy and AYUSH systems come together to share knowledge and work for the welfare of society. Through activities like seminars, conferences, health workshops, exhibitions, and health camps, we aim to spread awareness and promote holistic healthcare.

Our objective is to provide conceptual understanding, practical insights, and the latest updates in health and wellness, encouraging collaboration between traditional and modern medical systems for a healthier future.
