

9th International Health & Wellness Expo – Global Edition

21-23 AUGUST 2026 PRAGATI MAIDAN, NEW DELHI, INDIA

Modern Medicine & Medical Industry Platform

India's Most Powerful Integrated Healthcare Business Platform. Where Pharma, Medical Devices, Hospitals, AYUSH, and Medical Tourism converge — driving real deals, real partnerships, and real global expansion. Three transformative days. One complete healthcare economy under one roof.

KNOWLEDGE INNOVATION TRANSFORMATION

This Is Not an Exhibition. This Is a Global Healthcare Business Ecosystem.

The 9th International Health & Wellness Expo is the single most powerful commercial platform available to India's medical industry in 2026. Every element — from pre-scheduled buyer meetings to the Medical Leadership Summit — is engineered to generate business outcomes, not footfall.

3 Days

= 6 months of business pipeline.
Compressed. Focused. Deal-closing.

One Platform

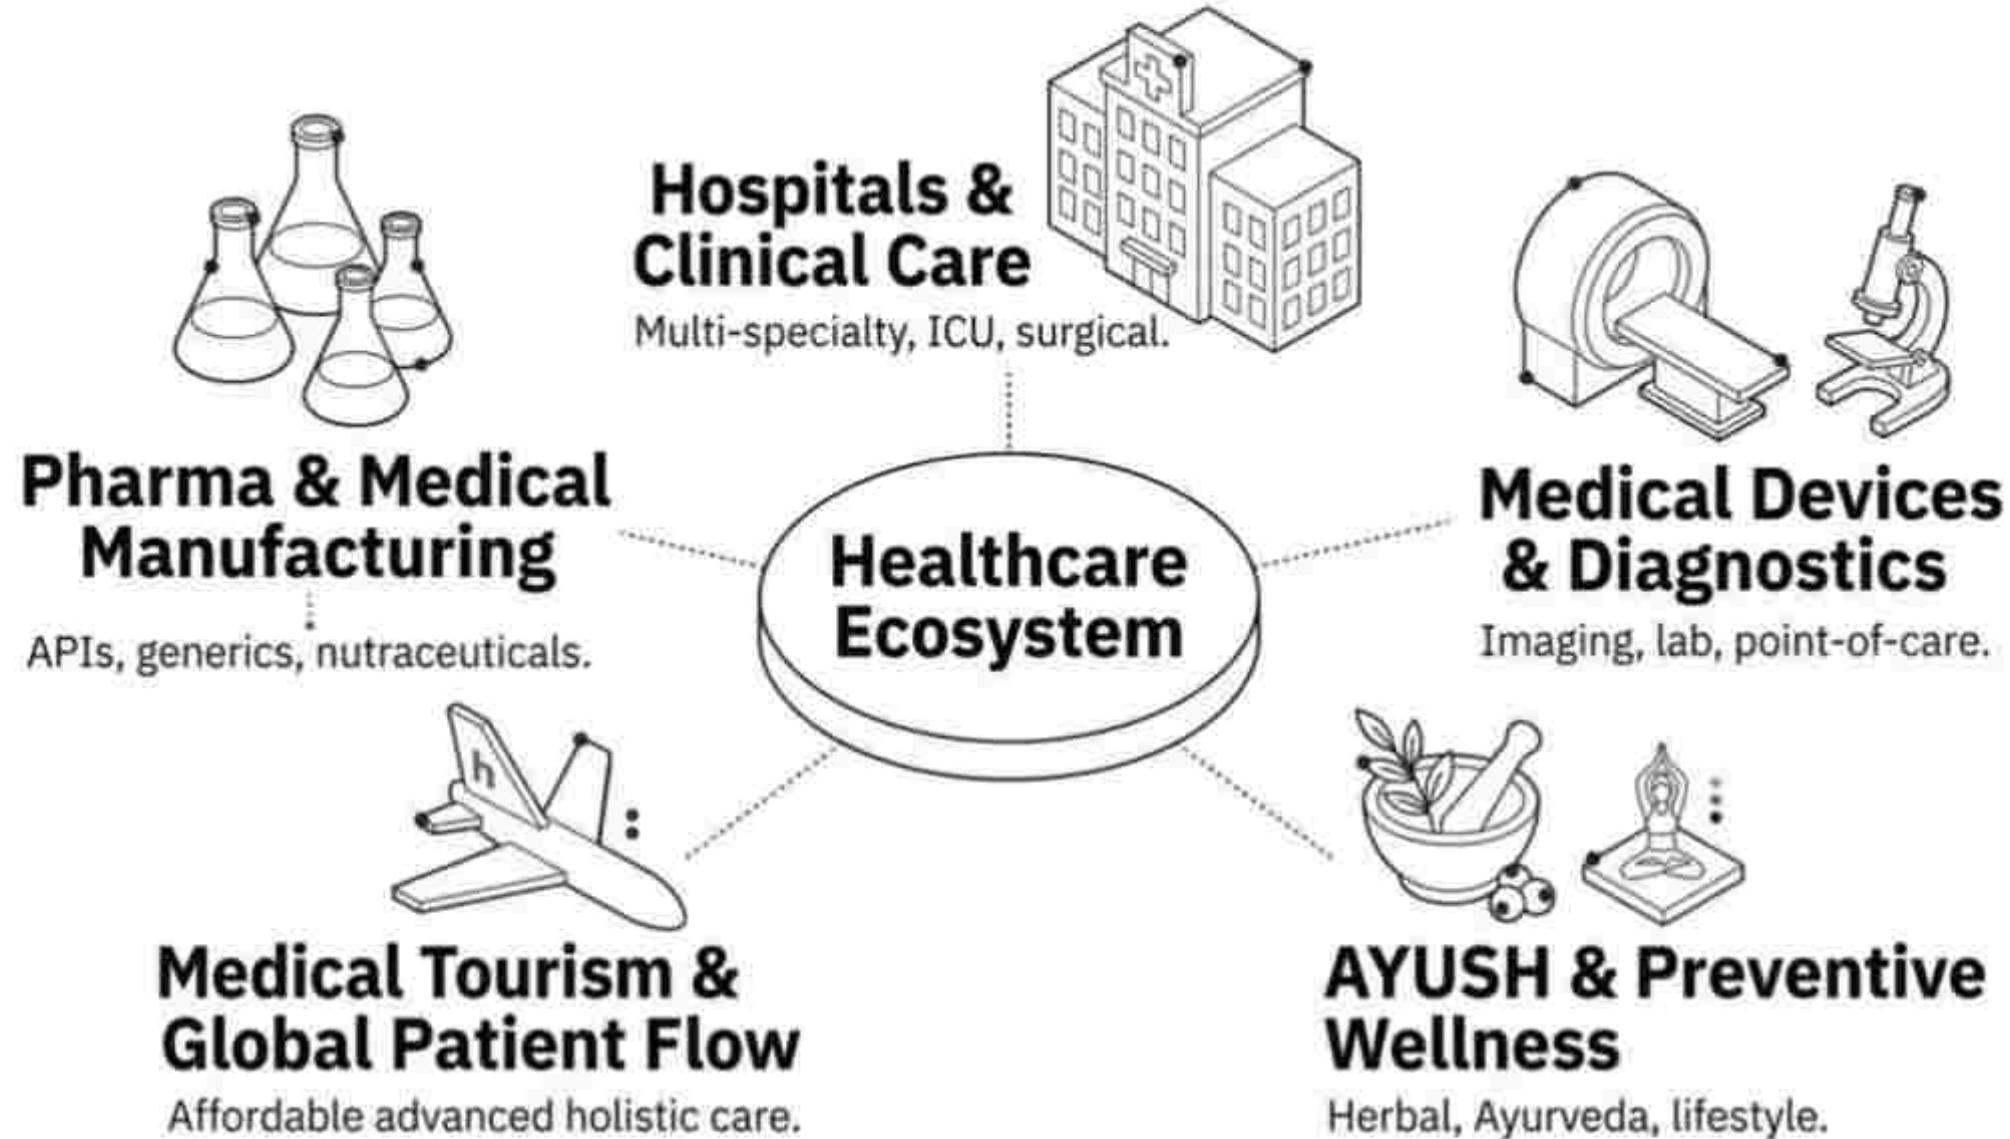

Complete healthcare value chain — from
treatment to prevention to global healing.

Zero Waste

You don't meet visitors. You meet buyers with budgets and procurement authority.

Complete Healthcare Economy Under One Roof

No other platform in India unites every critical segment of the modern healthcare economy in a single, structured commercial environment. This is the integrated edge — and your competitive advantage.

"From Treatment to Prevention to Global Healing — One Integrated Platform."

THE OPPORTUNITY

Why India. Why Now. Why This Platform.

India's healthcare sector is one of the world's fastest-growing industries — and it has never needed a unified, structured commercial platform more urgently than it does today.

\$372 Billion Industry

India's healthcare market is projected to reach \$372 billion by 2026 — driven by hospital expansion, digital health adoption, and rising middle-class demand.

\$25B+ Pharma Exports

India exports pharmaceuticals to 200+ countries. The expo accelerates your access to every key international market — faster than any distributor network.

World's Healthcare Destination

India is cementing its position as the world's preferred destination for affordable, advanced, and holistic medical care — combining allopathy, AYUSH, and wellness.

The Only Platform That Combines All Five Healthcare Verticals

Your Unique Strategic Advantage

Every other expo focuses on one vertical. This platform is the only one in India — and among the very few globally — that brings together the complete healthcare value chain under a single roof, in a structured commercial environment.

- Pharma manufacturers meeting hospital procurement heads
- AYUSH brands connecting with international wellness buyers
- Medical tourism operators meeting global patient facilitators
- Device companies engaging with ICU and surgical procurement leads
- Health IT firms demonstrating to hospital CIOs and CMOs

"This is not just a healthcare expo — this is a global healthcare business model."

Cross-Industry Business Opportunities — Who Gains What

The integrated model creates cross-vertical business opportunities that simply do not exist at single-segment expos. Every participant benefits from every other vertical's presence.

Pharma Companies

Expand into wellness markets and global distribution. AYUSH integration opens new product lines. Export deals with international buyers finalised on the floor.

Hospitals & Clinic Networks

Attract international patients through medical tourism partnerships. Integrate AYUSH departments. Procure devices and IT solutions in one structured buying environment.

AYUSH Brands

Scale globally via the medical ecosystem. Access hospital wellness departments. Connect with international wellness distributors and medical tourism operators.

Medical Tourism Players

Connect with hospitals, AYUSH brands, and global patient facilitators. Form joint packages combining treatment, recovery, and wellness for international patients.

What Makes This Platform Different

Engineered for real business outcomes — not awareness, not footfall, not vanity metrics. Every format element is designed to move commercial conversations forward.

Integrated B2B + B2C Format

Dual-format structure connects businesses with institutional buyers while engaging informed end consumers — all under one commercially structured roof.

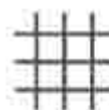

Strategic Business Focus

Accelerating distribution networks, forging export deals, and unlocking new market expansion — domestically and across Asia, Africa, and the Middle East.

Qualified Decision-Makers Only

Hospital procurement heads, distributors, international exporters, government health officials, and healthcare investors — pre-registered, pre-verified, and ready to transact.

Six Core Verticals

Hospitals & Clinics, Pharmaceuticals, Medical Devices, Diagnostics, Healthcare IT, and AYUSH — all represented with depth and buyer intent.
